

Detailed revise to reviewer

First, I would like to thank the anonymous referee for carefully reading my manuscript and for the useful observations.

I revised my initial submission according to reviewer's indications (in blue below), and I have prepared a revised version of my manuscript.

Below please find a detailed revise to the reviewer's observations.

Sincerely,

Hesam Mahzoon

1. As applications of main theorems I added two corollaries 2.2. and 2.4. Also, in the proof of theorems 2.1 and 2.3, two examples were before. Done.

Again, thank you for considering and carefully reading my manuscript.
