Prof. Khadijeh Jahedi,
Islamic Azad University-Shiraz Branch,
Iran

Dear Prof.

I am an associate professor at Department of Mathematics in Payame Noor University, Tehran, Iran. I worked and studied on fuzzy algebraic structure, fuzzy algebraic hyperstructure.

Recently, we discuss on fuzzy multigroups such as generalization of multigroups and fuzzy subgroups. We obtain some fuzzy multigroups by fuzzy subgroups and get some of useful properties.

I think the mathematical results presented in the attach file are original, fundamental, good and useful for further investigation in this area. Also, these results has no published elsewhere yet.

Feel free to contact me with
saeed_mirvakili@yahoo.com and saeed_mirvakili@pnu.ac.ir

to referees report. I wish it can be accept and publish in your journal.

With best regards

Saeed Mirvakili,
